Family Classics

Here are some attractions that the whole family will love. They are favorites among all park goers, from the youngest fan to the oldest enthusiast. There's something for everybody to enjoy together.

Carousel

Take a ride on a Seabreeze original. The Carousel was designed and built by the fifth generation for the Long Family; hand carved, beautifully painted, and lovingly maintained. Go for a whirl and see why it's memory maker for all ages.

Twirlin' Tea Cups

Spin to your heart's content aboard this new family classic. Six colorful cups rotate on a revolving platform, and you get to control just how much spin action you want - a little or a lot!

Train

Take a seat and catch a relaxing ride on our scenic railroad. Cross over the wooden train bridge and take a loop around the Log Flume. Then it's back to the station via the old mine tunnel.

Seabreeze Flyers

Slowly you pick up speed. Your flyer lifts up and you're in the air. You're the pilot, so you can keep things smooth, or you can sail back and forth. Take in the sights of the park and enjoy!

Tilt-A-Whirl

If you like to spin, then the classic, whizzy, dizzy Tilt-A-Whirl is for you. The cars are big enough for the whole family, so get the gang together and climb aboard.

The Spring!

Take a seat aboard this family-sized drop tower and be lifted into the air. Hang on for a second, and then suddenly you're dropping back towards the ground. For up and down thrills that the whole family will love, take a ride on The Spring!
